Prostate Cancer Screenings

Get a PSA blood test to measure your risk for prostate cancer.

- You must be between 45-75 and never have had prostate cancer.
- You must not have had a PSA (prostate-specific antigen) blood test in the last 12 months.

Skin Cancer Screenings

Get your skin checked in a private setting by a medical professional.

- You must be 18 or older to participate.
- This is only a rapid screening. See your doctor for a complete exam.

Screenings by appointment only, call 404-531-4444 to schedule.
